MAHSA GERAMY

FRONT-END DEVELOPER

MahsaGeramy | MahsaGeramy | mahsageramy.pr@gmail.com | +989901066416 | MahsaGeramy.ir

Summary

Front-End Developer with 4+ years of experience building scalable, SEO-friendly web applications using React, Next.js, and TypeScript. Experienced in developing complex user interfaces, designing reusable front-end architectures, and working with various backend services and data sources. Focused on performance optimization, Core Web Vitals, and delivering responsive, user-friendly web experiences.

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass
Frameworks & Libraries: React, Next.js (App Router, SSR, SSG), Redux Toolkit, RTK Query, Tailwind CSS, Bootstrap
Tools: Git, GitHub, Figma, CI/CD (GitHub Actions / Vercel)
Web Technologies: RESTful APIs, GraphQL, WebSocket, PWA, Responsive Design
Performance & SEO: Core Web Vitals, Technical SEO (Front-End), Performance Optimization, Data Fetching, Accessibility (a11y)
AI-Assisted Development: Prompt Engineering, GitHub Copilot, Claude, ChatGPT, Cursor

Work Experience

Front-End Developer - **Pezhvak Dadeh Khazar Company** (Full-time) 09/2024 – 22/2026
- Led the Front-End team in developing scalable, SEO-friendly web applications using Next.js, TypeScript, and Redux Toolkit, driving performance optimization, reusable architecture, and high code quality.

Front-End Developer - **Slick Foundation** (Remote) 09/2023 – 09/2024
- Developed SEO-friendly web applications using Next.js and React, focusing on performance optimization, maintainable architecture, and reusable components.

Front-End Developer - **Darik Soft Company** (Full-time) 04/2022 – 09/2023
- Built Front-End applications with React and Next.js, contributing to product design discussions

Projects

Jamooj - **Accommodation Booking Platform**
Guest: jamooj.com | Host: host.jamooj.com
- Architected and developed three separate applications from scratch: **Guest**, **Host**, and **Admin Panel**, using **React, Next.js (App Router) and TypeScript**.
- Achieved Lighthouse performance scores above 85 through rendering and asset optimization.
- Used Vercel's CI/CD pipeline for automated builds and deployments on every push to GitHub.
- Designed and implemented responsive, user-centric UI/UX for key pages, improving user engagement and contributing to a **20% increase in SEO performance**.
- Developed reusable and scalable UI components aligned with product and business requirements.
- Integrated **RESTful APIs** and managed asynchronous data flows across application features.
- Built a comprehensive **operator/admin panel** for managing listings, user registrations, and administrative workflows.

Toroo – **Fruit & Fresh Produce E-commerce Platform**
- Developed a full-featured e-commerce platform using **React , Next.js and TypeScript** featuring a **customer-facing storefront** and a comprehensive **admin dashboard** for managing business operations.
- Implemented core e-commerce features, including **product catalog, search, filtering, categorization, shopping cart, and wishlist** functionality.
- Developed end-to-end checkout workflows, including **online payment integration**, **address management**, **delivery zone selection**, **discount systems**, and order total calculations.
- Implemented **user authentication**, **account management**, and **order tracking** features.
- Developed admin dashboard modules for **product, order, pricing, inventory, warehouse, and accounting management**.
- Integrated **REST APIs** and managed **asynchronous data flows** across customer-facing and administrative interfaces.

POP - **Integrated Electronic Services Platform**
- Developed the entire front-end of an integrated electronic services platform using Blazor, HTML, CSS, and JavaScript.
- Designed and implemented **responsive user interfaces**, **reusable components**, and **interactive forms** with **input validation**.
- Integrated **REST APIs** to retrieve, submit, and manage application data in collaboration with the backend team.
- Developed **data tables** and **information display components** to support service-related workflows.

Education

B.Sc. in Software Engineering, Ayandeghan University 2020 – 2025
