Summary

Front-End Developer with 3+ years of experience building SEO-friendly, high-performance web applications using React and Next.js (SSR, SSG). Skilled in collaborating with designers and backend developers to improve Core Web Vitals, page speed, and overall user experience through clean, scalable Front-End architecture.

Skills

- Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass
- Frameworks & Libraries:** React, Next.js (App Router, SSR, SSG), Redux Toolkit, RTK Query, Tailwind CSS, Bootstrap
- Tools:** Git, GitHub, Figma, CI/CD (GitHub Actions / Vercel)
- Web Technologies:** RESTful APIs, GraphQL, WebSocket, PWA, Responsive Design
- Performance & SEO:** Core Web Vitals, Technical SEO (Front-End), Performance Optimization, Data Fetching, Accessibility (a11y)
- AI-Assisted Development:** Prompt Engineering, GitHub Copilot, Claude, ChatGPT, Cursor

Work Experience

- Front-End Developer - Pezhvak Dadeh Khazar Company** (Full-time) 09/2024 – Present
- Led the Front-End team in developing scalable, SEO-friendly web applications using Next.js, TypeScript, and Redux Toolkit, driving performance optimization, reusable architecture, and high code quality.
- Front-End Developer - Slick Foundation** (Remote) 09/2023 – 09/2024
- Developed SEO-friendly web applications using Next.js and React, focusing on performance optimization, maintainable architecture, and reusable components.
- Front-End Developer - Darik Soft Company** (Full-time) 04/2022 – 09/2023
- Built Front-End applications with React and Next.js, contributing to product design discussions

Projects

- Jamooj**
- Built the Front-End architecture from scratch using **Next.js (App Router)**, achieving **Lighthouse performance scores above 85** through rendering and asset optimization.
 - Used Vercel's CI/CD pipeline for automated builds and deployments on every push to GitHub.
 - Designed and implemented responsive, user-centric UI/UX for key pages, improving user engagement and contributing to a **20% increase in SEO performance**.
 - Developed reusable and scalable UI components aligned with product and business requirements.
 - Integrated **RESTful APIs** and managed asynchronous data flows for seamless user interactions.
 - Built a comprehensive **operator/admin panel** for managing listings, user registrations, and administrative workflows.
 - Collaborated with designers and backend developers to deliver a performant and maintainable Front-End experience.

ShoeGallery

- Developed a responsive e-commerce platform using Next.js, TypeScript, Tailwind CSS, and Redux.
- Built a clean, user-friendly shopping interface with Lighthouse performance scores above 85.
- Implemented advanced product search, filtering, and shopping cart functionality to improve usability.
- Applied SEO best practices, including semantic HTML, meta tags, and structured markup to improve search visibility.
- Integrated analytics and user behavior tracking to identify UX improvements and optimize the shopping experience.
- Wrote scalable, maintainable Front-End code with reusable components and efficient state management.

Slick.gr

- Built a server-side rendered e-commerce platform with React and Next.js, using SSG for product listing pages to minimize initial load time
- Structured API data fetching with efficient caching strategies, reducing redundant network requests during navigation
- Styled a fully responsive shopping interface with Tailwind CSS, optimized for both mobile and desktop checkout flows

Education

B.Sc. in Software Engineering, Ayandeghan University 2020 – 2025
